## Superb Accuracy

- Uniquely shaped spinner discs work together to provide an accurate, controlled, even spread regardless of materials!
- A **Transpread** digital tachometer comes standard with all **Transpread Spreaders** when not fitted with **ComputerSpread** option. This enables the operator to accurately monitor the spinner speed.

## Proven History and Performance.

Around the world, for over 50 years of development and use in some of the most punishing conditions across the world.

**Transpread** spreaders continue to sell better due to the expert design and experience. Patented technology means you can't get better accuracy, reliability and quality from any other spreader.

Spreading compost at 10,000 kg per Ha.

## Speed Related Ground Drive.

No more guess work with rates and speed, simply set the 3 speed gearbox and door opening and drive any speed you like. Or fit **ComputerSpread** and have computerized control

## Optional Attachments

- All have the option of being fitted with **Transpread ComputerSpread** controls for super accurate spreading and can be manufactured out of **Stainless Steel**

## 1000 mm wide feed system.

- ❖ Steel or Stainless
- ❖ Dual Chain Feed
- ❖ Low Maintenance
- ❖ Spinner Speed Readout
- ❖ High Torque motors
- ❖ High capacity Gear box
- ❖ Light Weight
- ❖ 5m<sup>3</sup> to 22 m<sup>3</sup> Capacity
- ❖ 1000 mm Wide Chain
- ❖ Easy Loading

Twin 500 mm wide drag chains feeding two 775 spinners.

Capable of spreading up to 1000 cu mtr. per day.

Several models available ranging from 8 cu. mtr. to 20 cu. mtr.

Increase your capacity to spread these types of material. Can be used on chicken litter, barn and

loafing pad waste, compost, lime, fertiliser and many other products. Invest in a **TRANSPREAD** and watch your tonnage grow.

The **Transpread 1000 Spreader** comes fitted with under floor return system giving it the ability to spread almost any product.

### Chain Feed Quality

- The excellent **Transpread** designed chain provides reliable and constant feed to the spinner discs.
- Easily spreads all types of materials from lime to compost to fowl manure
- Chain conveyor gives reliable, effective and accurate spreading on hilly or uneven ground
