

Butterfly Dump Station

SPEED - DEPENDABILITY - CONVENIENCE

Can be loaded from standard tipping body

Load your spreader, handles a wide range of products.

Ideal for operators wanting to keep their spreaders in the paddock or contractors with 2 or 3 trucks.

Bin capacity 15 tonnes of fertilizer or 20 Tonnes of lime, designed to keep both spreaders and road trucks operating more efficiently. Eliminates dead travel and unnecessary tyre wear especially on high floatation tractor grip tyres. Self Contained Hydraulic System. Environmentally friendly eliminating paddock dumping.

- Simple to operate
- Compact for transport
- Sturdy construction
- Full hydraulic control
- With variable bin sizes

“Where I’ve been, the grass is green,”
